Math (on a separate sheet of paper)

Show your work for each question! Draw the coins for questions d and e.

a) My breakfast cost $7.32. I paid for it with a $10 bill. What is my change?

b) My lunch cost $17.68. I paid for it with a $20 bill. What is my change?

c) My supper cost $27.94. I paid for it with a $50 bill. What is my change?

d) I paid for my hamburger that cost 3.59 with 14 coins. There is no change. What coins did I use?

e) I paid for a muffin that cost $1.35 with quarters and dimes. I used twice as many dimes as quarters. How many quarters of each type did I use?

Language Arts (on separate sheet of paper, or as blog post)

Choose a book that you like. It could be a book you have already read or are currently reading. It could be a book from the library, your home, or our classroom.

Write a paragraph to review the book. Include:

☐ the title and author

☐ a brief explanation of what the story is about. You might use the Who Wants But So Then strategy for this.

☐ Explain, with examples, what you like about the book.
